8990 HOLDINGS, INC. AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Basis of Preparation

The accompanying unaudited financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, Interim Financial Reporting. The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at December 31, 2016.

The preparation of the financial statements in compliance with Philippine Financial Reporting Standards (PFRS) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying reports. The estimates and assumptions used on the accompanying unaudited financial statements are based upon management's evaluation of relevant facts and circumstances which are used as indicators affecting the results as of the date of the unaudited financial statements. Actual results could differ from such estimates.

The accompanying unaudited financial statements have been prepared on a historical cost basis. Further, this has been presented in Philippine peso, the functional currency of 8990 Holdings, Inc. All values are rounded to the nearest peso except when otherwise indicated.

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the unaudited financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended December 31, 2016.

The following standards and interpretations were adopted beginning January 1, 2013, but do not have significant impact on the financial position or performance of the Company.

- PFRS 7, *Financial Instruments: Disclosures-Offsetting Financial Assets and Financial Liabilities (Amendments)*
- PFRS 10, *Consolidated Financial Statements*
- PFRS 11, *Joint Arrangements*
- PFRS 12, *Disclosure of Interests in Other Entities*
- PFRS 13, *Fair Value Measurement*
- PAS 1, *Presentation of Financial Statements – Presentation of Items of Other Comprehensive Income or OCI (Amendments)*
- PAS 1, *Presentation of Financial Statements – Clarification of the requirements for comparative information*
- PAS 27, *Separate Financial Statements (as revised in 2011)*
- PAS 28, *Investments in Associates and Joint Ventures (as revised in 2011)*
- Philippine Interpretation IFRIC 20, *Stripping Costs in the Production Phase of a Surface Mine*
- PFRS 1, *First-time Adoption of PFRS – Borrowing Costs*
- PAS 16, *Property, Plant and Equipment – Classification of servicing equipment*

- PAS 32, *Financial Instruments: Presentation – Tax effect of distribution to holders of equity instruments*
- PAS 19, *Employee Benefits (Revised)*
- PAS 34, *Interim Financial Reporting – Interim financial reporting and segment information for assets and liabilities*

The following standard and interpretation was adopted beginning January 1, 2014, but does not have significant impact on the financial position or performance of the Company.

- PAS 32, *Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities (Amendments)*
The amendments clarify the meaning of “currently has a legally enforceable right to set off” and also clarify the application of the PAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. The amendments affect presentation only and have no impact on the Company’s financial position or performance.

The following standards and interpretations was adopted beginning January 1, 2015.

- PFRS 9, *Financial Instruments*
PFRS 9, as issued, reflects the first phase on the replacement of PAS 39 and applies to the classification and measurement of financial assets and liabilities as defined in PAS 39, *Financial Instruments: Recognition and Measurement*. Work on impairment of financial instruments and hedge accounting is still ongoing, with a view to replacing PAS 39 in its entirety. PFRS 9 requires all financial assets to be measured at a fair value at initial recognition. A debt financial asset may, if the fair value option (FVO) is not invoked, be subsequently measured at amortized cost if it is held within a business model that has the objective to hold the assets, to collect the contractual cash flows and its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal outstanding. All other debt instruments are subsequently measured at fair value through profit or loss. All equity financial assets are measured at fair value either through OCI or profit or loss. For FVO liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability’s credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. All other PAS 39 classification and measurement requirements for financial liabilities have been carried forward into PFRS 9, including the embedded derivative separation rules and the criteria for using the FVO.

The adoption of the first phase of PFRS 9 will have no impact on the classification and measurement of financial assets and liabilities.

- Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate*
This interpretation covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The SEC and the Financial Reporting Standards Council (FRSC) have deferred the effectivity of this interpretation until the final Revenue standard is issued by the International Accounting Standards Board (IASB) and an evaluation of the requirements of the final Revenue standard against the practices of the Philippine real estate industry is completed.

The accompanying unaudited consolidated financial statements have been prepared on a historical cost basis. Further, this has been presented in Philippine peso, the functional currency of 8990 Holdings, Inc. and its subsidiaries. All values are rounded to the nearest peso except when otherwise indicated.

2. Basis of Consolidation

The unaudited consolidated financial statements include the financial statements of the Parent Company and the following wholly owned subsidiaries:

- 8990 Housing Development Corporation
- Fog Horn, Inc.
- 8990 Luzon Housing Development Corporation
- 8990 Davao Housing Development Corporation
- 8990 Mindanao Housing Development Corporation
- 8990 Leisure and Resorts Corporation

Control is achieved when the Parent Company is exposed, or has the rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure or rights to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has the power over an investee, including:

- ~~The contractual arrangement with the other voting shareholders of the investee~~
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income, expenses and other comprehensive income (OCI) of a subsidiary are included in the financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. The consolidated financial statements are prepared for the same reporting period as the Parent Company's financial statements, using consistent accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Parent Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for within equity. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Parent Company.

When a change in ownership interest in a subsidiary occurs which results in a loss of control over the subsidiary, the Parent Company:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the Parent Company's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

When there are business combinations in which all the combining entities within the Group are ultimately controlled by the same ultimate parent (i.e. controlling shareholders) before and after the business combination and the control is not transitory (business combinations under common control), the Group accounts for such business combinations similar to a pooling of interests. The assets and liabilities of the acquired entities and that of the Group are reflected at their carrying values in the stand-alone financial statements of the investee companies. The difference in the amount recognized and the fair value of the consideration given is accounted for as an equity transaction, i.e., as either a contribution or distribution of equity. Further, when a subsidiary is disposed in a common control transaction without loss of control, the difference in the amount recognized and the fair value consideration received, is also accounted for as an equity transaction.

The Group recorded the above difference as Equity Reserve and is presented as a separate component of equity in the consolidated statement of financial position. Comparatives shall be restated to include balances and transactions as if the entities had been acquired at the beginning of the earliest period presented in the consolidated financial statements, regardless of the actual date of combination.

The Group consolidated the assets, liabilities, income and expenses of the Parent Company starting May 2012, which was the date when the controlling shareholders acquired or gained control over the Parent Company.

3. Segment Information

For management's purposes, the Group's operating segments are organized and managed separately according to the nature of the products provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Group has four reportable operating segments as follows:

Low-cost mas Mass Housing

This segment pertains to the housing market segment of the Group. It caters to the development and sale of residential lots and units.

Medium-rise Condominium Units

This segment pertains to the medium-rise condominium segment of the Group. It caters to the development and sale of condominium units.

High-rise Condominium Units

This segment pertains to the high-rise condominium segment of the Group. It caters to the development and sale of condominium units with more than four (4) storeys.

Preferred Share

This segment pertains to sale of preferred share wherein the purchaser has a perpetual right to occupy one unit of the Group's vacation hotel for a specific number of days in a year.

Hotel Operations

This segment pertains to the activities from hotel operations, which are considered incidental revenues while the Group has not yet sold all of the timeshares of its vacation hotel, Azalea Baguio Residences.

The hotel operation's peak season is during the holiday and summer seasons. For other supplementary businesses, there is no significant seasonality that would materially affect their operations. This information is provided to allow for a proper appreciation of the results of the Company's operations.

The Group has only one geographical business segment as all the assets and liabilities are located in the Philippines. The Group derives all of its revenues from domestic operations. Thus, geographical business segment information is not presented. No operating segments have been aggregated to form the above operating business segments.

Management monitors the operating results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on segment operating income or loss. The presentation and classification of segment revenues and expenses are consistent with the consolidated statements of comprehensive income. This segment information is presented monthly to the Parent Company' BOD who is the Chief Operating Decision Maker. Finance income consists on interest earned from installment contract receivables and deposits in banks.

The amount of segment assets and liabilities are based on the measurement principles that are similar with those used in measuring the assets and liabilities in the statement of financial position which is in accordance with PFRS. Capital expenditures represent acquisitions of 'Land held for future development', 'Property and equipment', and 'Investment properties'. The Group has no significant customer which contributes 10% or more of their segment revenue.
